

What sort of ingredients are not used in Ash Eden Products?

PETROCHEMICAL OILS: Cheap, harsh, mineral based compounds, often with impurities that can cause irritation. Bad for you and the planet.

PARABENS: Cheap (but effective) preservatives, linked to endocrine disruption and cancer. We choose safer and or natural preservatives.

PHTHALATES: Toxic plasticisers added to some cheap perfumes to enhance performance, linked to reproductive disorders and disease.

SULPHATES: Cheap, harsh (but effective) palm or petrochemical based detergents. Can strip colour from hair. Sulphates are also used in laboratories as skin irritants.

PALM OIL: Cheap vegetable oils sourced from Oil Palm plantations. Palm Oil is responsible for the destruction of rainforest and many endangered species natural habitats. Palm Oil and it's derivatives can be replaced by more ethical alternatives. It costs a little bit more, it takes more effort, but we think the investment is worth it.

SODIUM CHLORIDE: Cheap, harsh, bulking agents used to make lotions appear more luxurious. Abrasive and drying to skin and hair.

MEA: PH balancer and wetting agent added to build lather cheap shampoos. Can react with chemicals to create carcinogens.

DEA: PH balancer and wetting agent added to build lather cheap shampoos. Can react with chemicals to create carcinogens.

ARTIFICIAL COLOURS: Adding colours to products is deceptive and can cause allergic reactions. Our product colour is as nature intended.

ANIMAL TESTING: We use safe, gentle ingredients with documented history. We test on ourselves, our friends and family...not on our pets.

ASH EDEN
ageless

What sort of ingredients are in Ash Eden products?

NATURAL OILS: Argan Oil, Almond, Jojoba, Rosehip, Macadamia and Avocado, renowned for their fineness, moisturising and health giving properties.

HUMECTANTS: Phospholipids, Bio-Lipids, Aloe Vera, and Glycerin, help restore and regulate your skin's 'Natural Moisture Factor'.

ANTI OXIDANTS: Argan Oil, Grape Seed, Vitamin C & E, scavenge, neutralise and help repair free radical damage.

COCONUT CLEANSERS: A gentle cocktail of Coconut cleansers, safe and gentle on skin, scalp and hair. Safe for coloured hair.

EXOTIC BOTANICALS: Green Tea, Green Coffee Bean Extracts*, help correct Oxidative stress, regulate blood flow, stimulate cellular activity and deliver vital nutrients.

FLOWER ESSENCES & ESSENTIAL OILS: Ylang Ylang, Sweet Orange, Rose and Jasmine aromatherapy ingredients renowned for their calming, refining and nourishing properties.

PEPTIDES* – Building blocks for skin cells, help energise and rejuvenate cells, help stimulate Collagen production and cell renewal.

GLYCANS* – Messenger compounds found on the outer cell wall, energise, stimulate communication, renewal and Collagen production.

LYCOPENES* – Help protect skin cell DNA from UV and Oxidative damage.

AMINO ACIDS – essential proteins and protein pieces (that make up our DNA) used by the body to repair, rebuild and create new cells.

VITAMINS – A, C, E & B's utilised by the body to regulate cellular function and in the creation of other compounds like Collagen & Elastin.

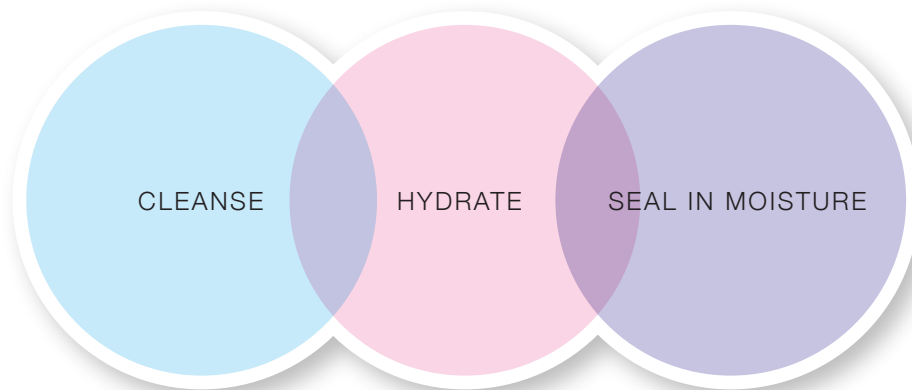

MINERALS – Calcium and Zinc, used by the body to support the immune system and to support healthy cell function and structure.

PLANT BASED PROTEINS – Gentle, fortifying proteins that strengthen skin and hair, bind with keratin to add volume and help smooth the cuticle.

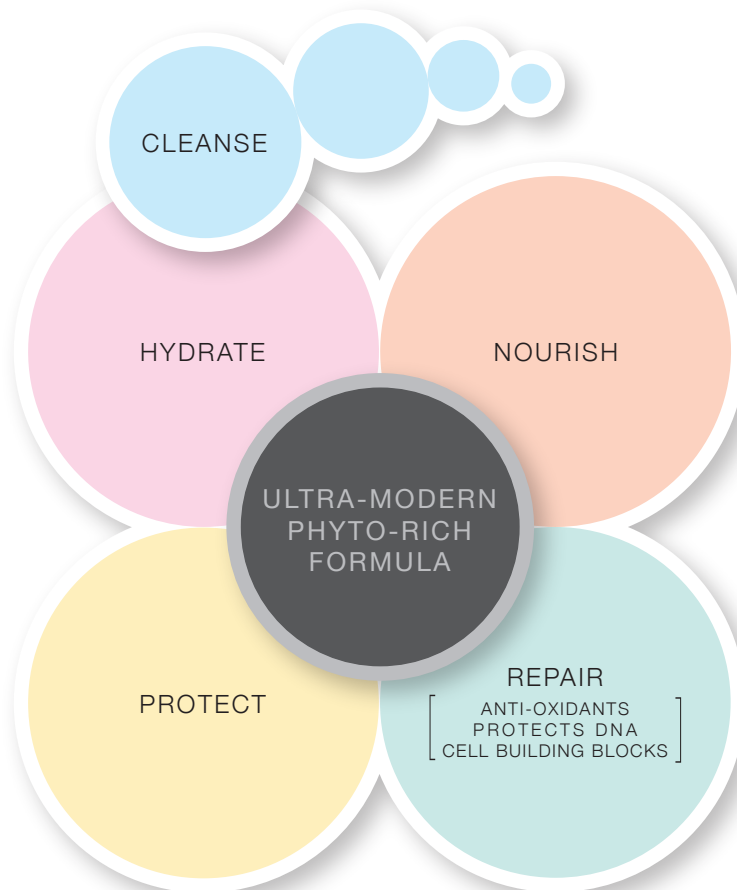

* Found in our Active Skin Fitness Range of advanced Anti-Ageing skin care products.

Foaming Cleanser

(with Argan Oil)

Tiny microscopic bubbles for deep pore cleansing. Ash Eden Foaming Cleanser enriched with Argan Oil 'Nature's Liquid Gold' and soothing Green Tea Extract, reaches deep into pores to help remove impurities, old make-up and environmental contaminants to reveal shiny, fresher feeling, cleaner skin. Ash Eden Foaming Cleanser is pH-balanced, with vital Essential Oils that won't irritate or dry out your skin.

Gentle, Sulphate and Soap Free formula. Safe for daily use. With soothing Botanicals, hydrating Bio-Lipids and Anti-Oxidants to help fight free radical damage.

KEY INGREDIENTS

Gentle Coconut Cleansers, Bio-Lipids, Vitamin E, Argan Oil, Macadamia Oil, Aloe Vera and Green Tea Extract.

BENEFITS

- Gentle, facial cleansing
- Won't strip skin's natural oils
- Sulphate and Soap Free formula
- Soothing natural Botanicals

INSTRUCTIONS

Place a small ten cent piece sized amount in your hands, rub together to form a luscious foam. Apply to your face in circular motions, gently working into the skin. Rinse thoroughly and repeat. Leaves skin feeling clean, fresh and alive.

TARGET CUSTOMER

An essential part of any "at Home" beauty regimen. Ideal for customers with sensitive skin who want gentle cleansing with hydration.

AVAILABLE OPTIONS

- 50ml Bottles
- 125ml Bottles
- 1000ml Professional Bottles

* TIPS

Splash skin with water first to remove built up surface dirt, oils and perspiration.

+ OTHER USES

Can be used to gently clean other sensitive body areas.
